

# 85 Series Bi-fold Door

The 85 Series Bi-fold Door is designed with precision and functionality in mind, offering a range of features that make it an ideal choice for any environment. It is equipped with a secure 3-point locking system and an innovative connector between panels that ensures an airtight seal. This thermal break door provides superior insulation, making it suitable for all climates. The door's powder-coated finish offers enhanced durability and a sleek, modern look. Hidden adjustable hinges contribute to a clean aesthetic while allowing for easy adjustments. Thick weather stripping between each panel guarantees excellent weatherproofing, effectively protecting against the elements. The bottom track is ramped from one side, facilitating smooth access and adding to the door's overall convenience and user-friendly design.

**These are designed with a 2.6" (66mm) frame depth and can be seamlessly integrated with our windows to maximize views. They are available in widths ranging from 18" to 36" and heights from 47" to 112".**
