

95 Series Bi-fold Door

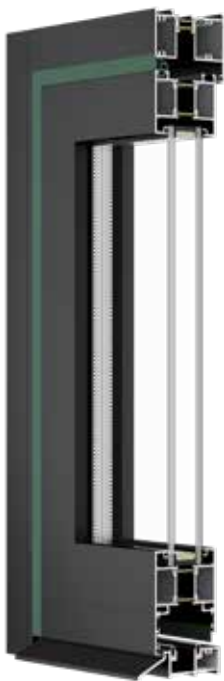

The 95 Series Bi-fold Door is an advanced and robust solution for any architectural project, featuring a secure 5-point locking system and a thermal break foam-insulated profile for exceptional energy efficiency. Designed for all climates, this door includes three layers of weather stripping, ensuring superior protection against the elements. The low track and ramped bottom track provide easy access, while the adjustable hinges and wheels ensure smooth operation and precise alignment. Made with heavy-duty U.S. manufactured hardware, this door is built to last. Additionally, it complies with Title 24 regulations, making it an environmentally friendly choice that meets stringent energy efficiency standards.

These doors are designed with a 3.15" (80mm) frame depth and are available in panel widths ranging from 26" to 40" and heights from 80" to 168".

PRODUCT FEATURES
